

Smoke Alarms

Having a smoke alarm on every level of the home, in every bedroom and outside sleeping areas is critical to your safety.

SMOKE ALARMS SAVE LIVES

The risk of dying in a home fire is cut in half when the home has working smoke alarms. Half of all home fire deaths happen at night, when residents are generally sleeping.

Test smoke alarms at least once per month using the test button.

Replace smoke alarms when they are 10 years old.

Do you need help with smoke alarms?

Awendaw McClellanville Fire Department, in partnership with American Red Cross, can install free 10-year smoke alarms in your home.

Make an appointment by calling the Fire Department at (843)928-3000
