

CERTIFICATION

This application for U.S. Department of Housing and Urban Development funds has been reviewed and approved by the applicant governing board or by a duly appointed signatory official for the organization. Further, I am aware that if a project requires an Environmental Assessment* that this clearance process could greatly delay project start-up and affect project site feasibility. Additionally, the entity will incur additional expenses in obtaining such clearance.

Typed Name of Certifying Official with Title

Signature (*original*)

Date Approved (*Month/Day/Year*)

*Examples of projects for which HUD requires an environmental assessment include but may not be limited to:

- New housing construction
- Conversion of uses
- Construction of public facilities
- Infrastructure (includes water and sewer lines)
- Acquisition/Disposition/Demolition
