Debris from Hurricane Ian

Charleston County Government has completed its assessment of vegetative debris from Hurricane Ian. The volume of debris is not large enough to meet the threshold to initiate the County's on-call contractor. The County will remove debris that has fallen within County owned right of way but will not collect debris curbside from individual homes.

Residents should utilize their normal method of vegetative debris disposal through municipal or public service district pickups or self-disposal. Residents with debris located within the Asian Longhorned Beetle quarantined area should not transport debris outside of the quarantined area. The Bees Ferry and Hollywood convenience centers are located within the boundary. https://www.aphis.usda.gov/plant_health/plant_pest_info/asian_lhb/downloads/albmaps/south-carolina-regulatory-boundary.pdf

Residences who received damage to their homes or need assistance with tree removal associated with Hurricane Ian can contact Crisis Cleanup at **1-800-451-1954** to register.
